

Notification Regarding the Web Availability of the Accuracy Test Certificate for Machines

Notification

At present, a printed Accuracy Test Certificate on clean paper is supplied with machines, but in order to reduce CO₂ emissions, for machines shipped from April 2026 onward, we will gradually switch to providing the Accuracy Test Certificate in data format.

Data will be provided on the manual download website, "My Machine Portal (MMP)", for each machine serial number.

If a printed Accuracy Test Certificate is required, please ask a DISCO sales representative at the time of purchasing a machine.

Applicable models

All the models

Method of viewing the Accuracy Test Certificate

Please refer to the procedure described in the section "Notification Regarding the Manual" in the booklet titled "Technical Newsletter" supplied with the machine.

Inquiries

Please contact your local DISCO sales representative or DISCO customer engineer if you have any questions regarding this matter.
