## **DFG8540 Tier 3**

(Rev. 1.00)

Trainee (受講者)	
Company (会社名)	

Period (期間)	
Trainer (トレーナー)	

Module		Sign-off (サインオフ欄)		
ール)	(ページ)	Date (日付)	Trainee (受講者)	Trainer (トレーナー)
Day 1				
1. Important Safety Information				
Interpret the Important Safety Information	2			
2. Transfer Arm Maintenance				
Interpret the Overview of the Transfer Arm Maintenance	38			
Adjust the Height of the Transfer Arm 1	48			
Adjust the Wafer Transfer Position of the Transfer Arm 1	59			
Adjust the Height and the Parallelism of the Transfer Arm 2	83			
Adjust the Wafer Transfer Position of the Transfer Arm 2	99			
3. Robot Maintenance				
Interpret the Overview of the Robot Maintenance	124			
Adjust the Parallelism of the Robot Pick	148			
Adjust the Robot Position	164			
Adjust the Standard Cassette	193			
Day 2				
uck Table Maintenance				
Perform Self-grinding	236			
5. Piping and Electrical Parts				
Interpret the Piping Diagram	316			
Interpret the Piping Parts	328			
Interpret the Layout of the Electrical Parts	347			
Interpret the I/O Map	354			
Execute Setting of the Electrical Parts	365			
6. Appendix				
(Appendix) Adjust the DSC Cassette	381			
(Appendix) Adjust the DBG Cassette	423			
(Appendix) Adjust the Orientation Flat Alignment Mechanism	451

## Course composition, intended trainees and course objective

Course Name	Intended Trainees			
Tier 1	who operates the machine to process products			
Tier 2	- who has already completed the "Tier 1" course (or has equivalent operation skills) - who conducts data and function settings of the machine - who conducts periodic maintenance of the machine			
Tier 3	- who has already completed the "Tier 2" course (or has equivalent operation skills) - who conducts maintenance works which are not described in the Maintenance Manual of the machine			

Course Objective	
o enable trainees to understand the terms necessary for opera the machine and to process products by calling up the data set it the machine	
To enable trainees To create the data and set the data and inctions for operating the machine To enable trainees To safely and precisely perform the periodivaintenance and consumable parts replacement described in the intenance Manual of the machine	
o enable trainees to conduct maintenance works which are not escribed in the machine Maintenance Manual (only the items th an be executed without any special tools or access to the internal laker Data)	nat
